PAYMENTS GATEWAY

Our payments gateway combines **acquiring capabilities, numerous alternative payment methods and online-bankings** across multiple locations with a wide choice of currencies.

GT enables eCommerce clients to **accept payments from and issue payouts to customers** using our technological innovation within a single unified integration.

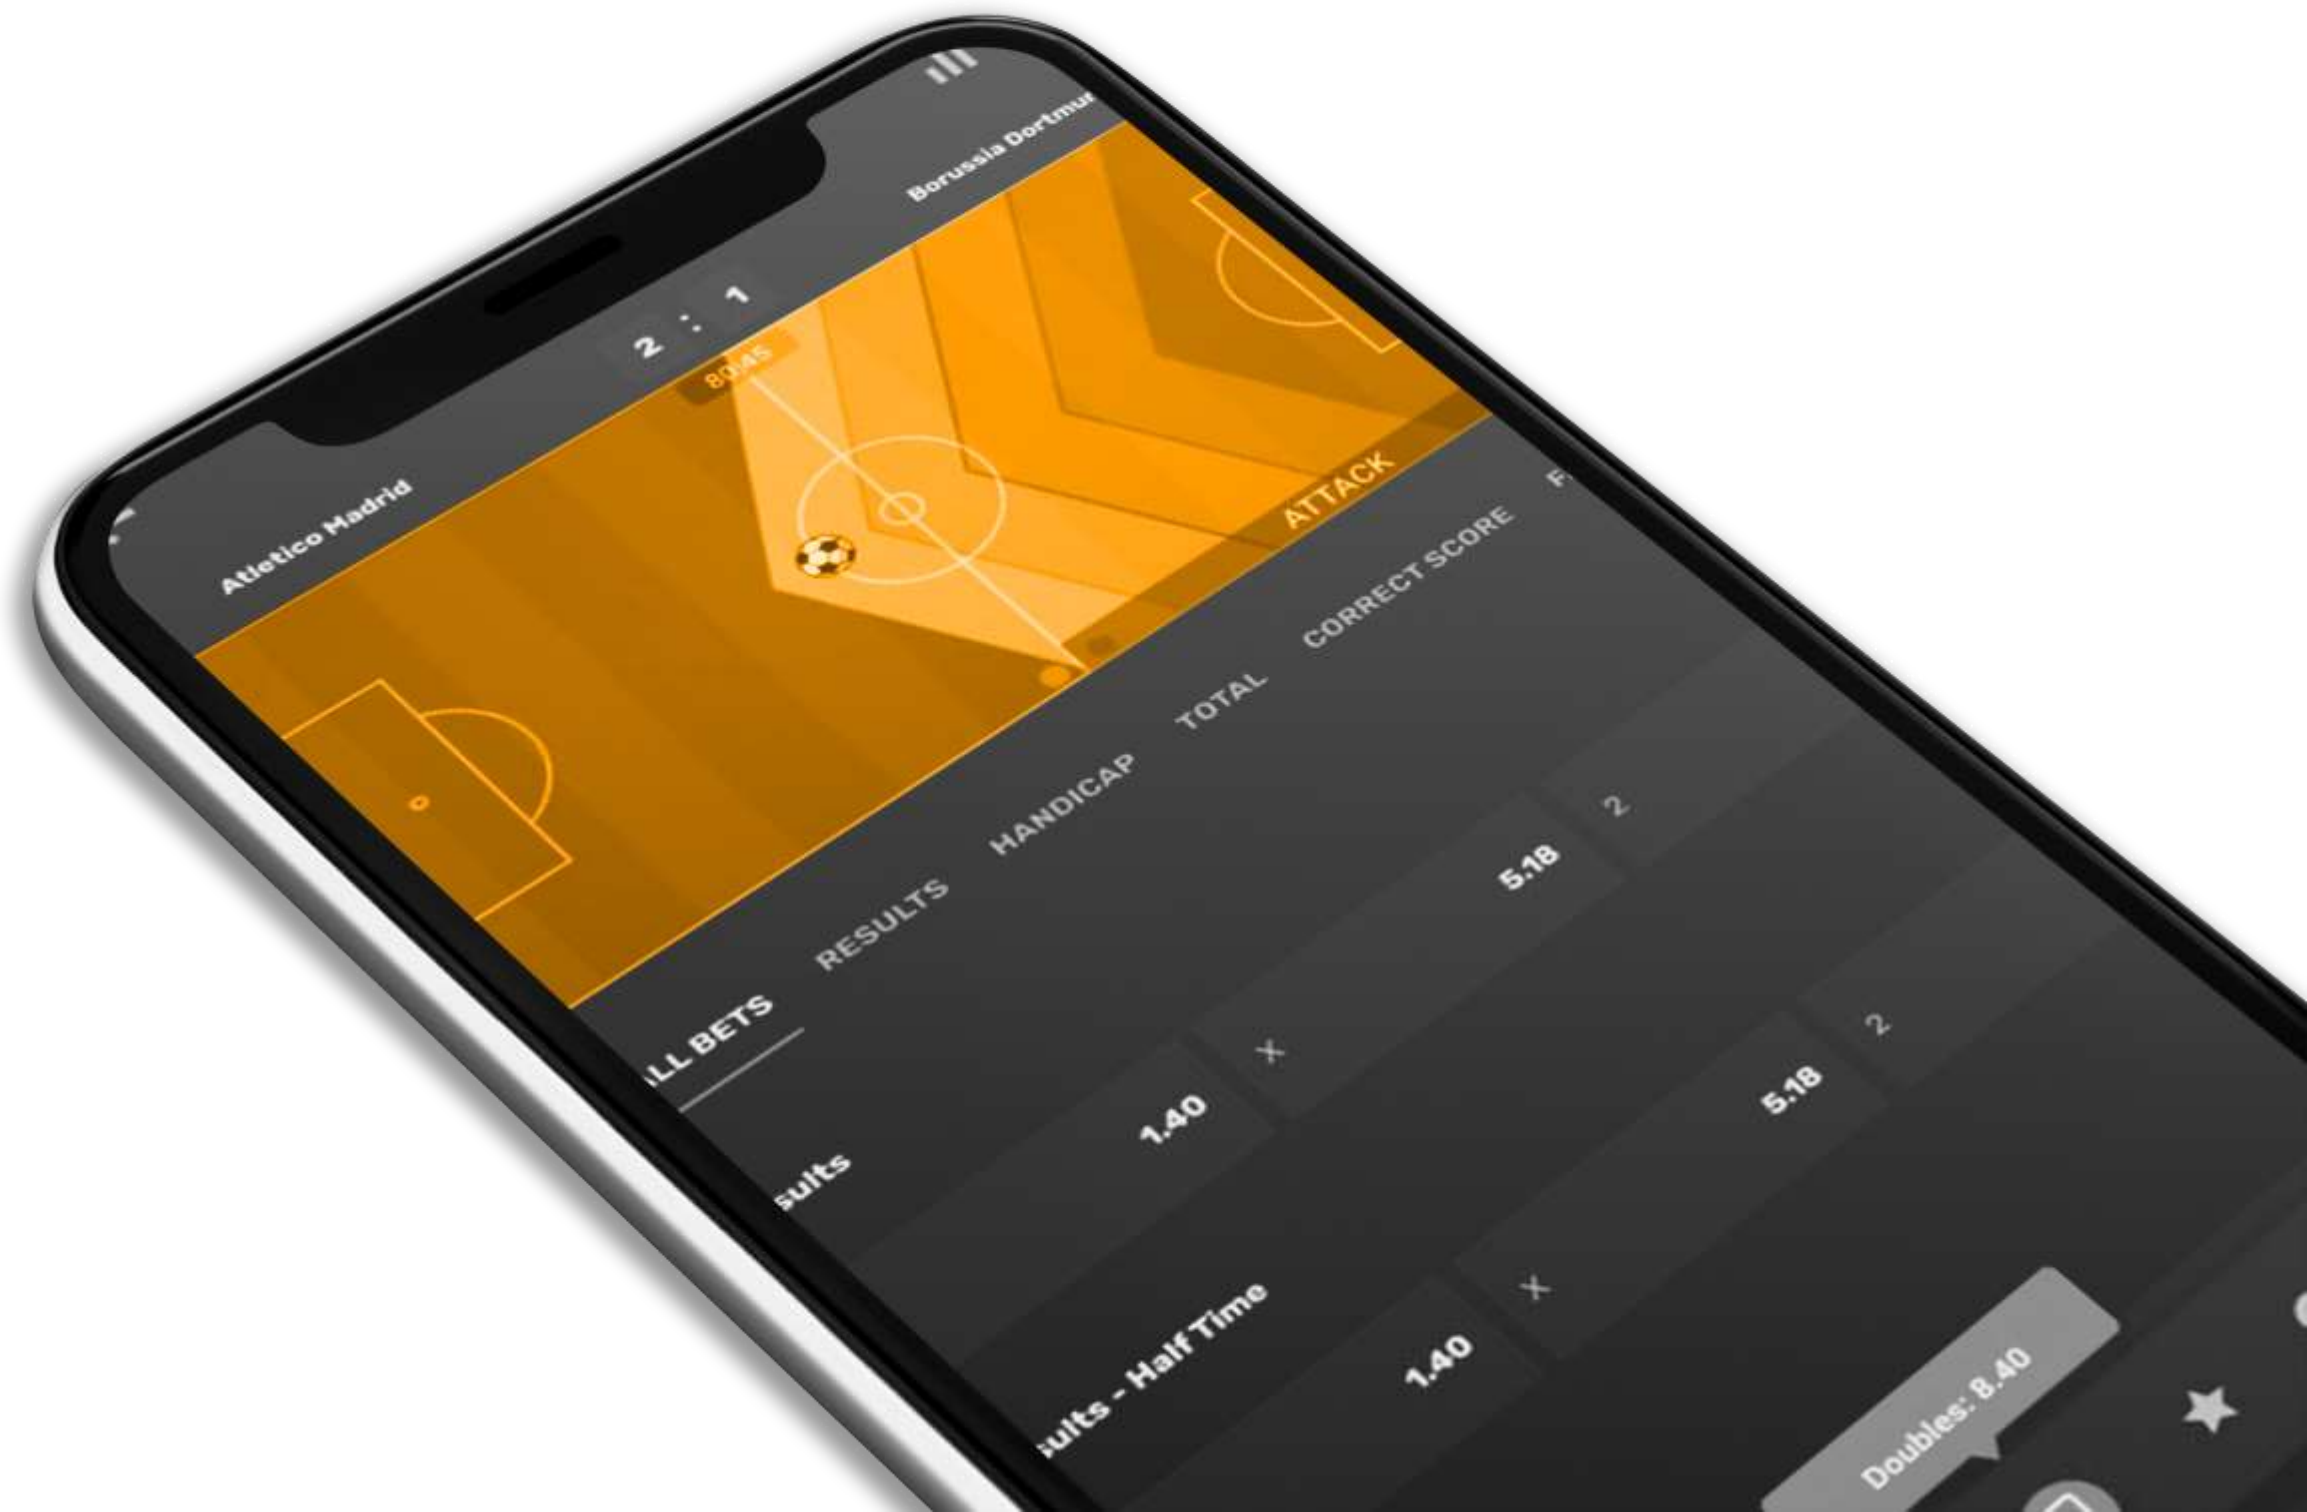

GT gives an **individual approach to each partner** offering a variety of custom-tailored products, features and technologies to simplify and secure the payment process for consumers on any devices.

- ◆ 15+ countries in operation
- ◆ 100+ supported currencies

More than 200 PSP integrations to ensure you can choose the right payment process for your business strategy.

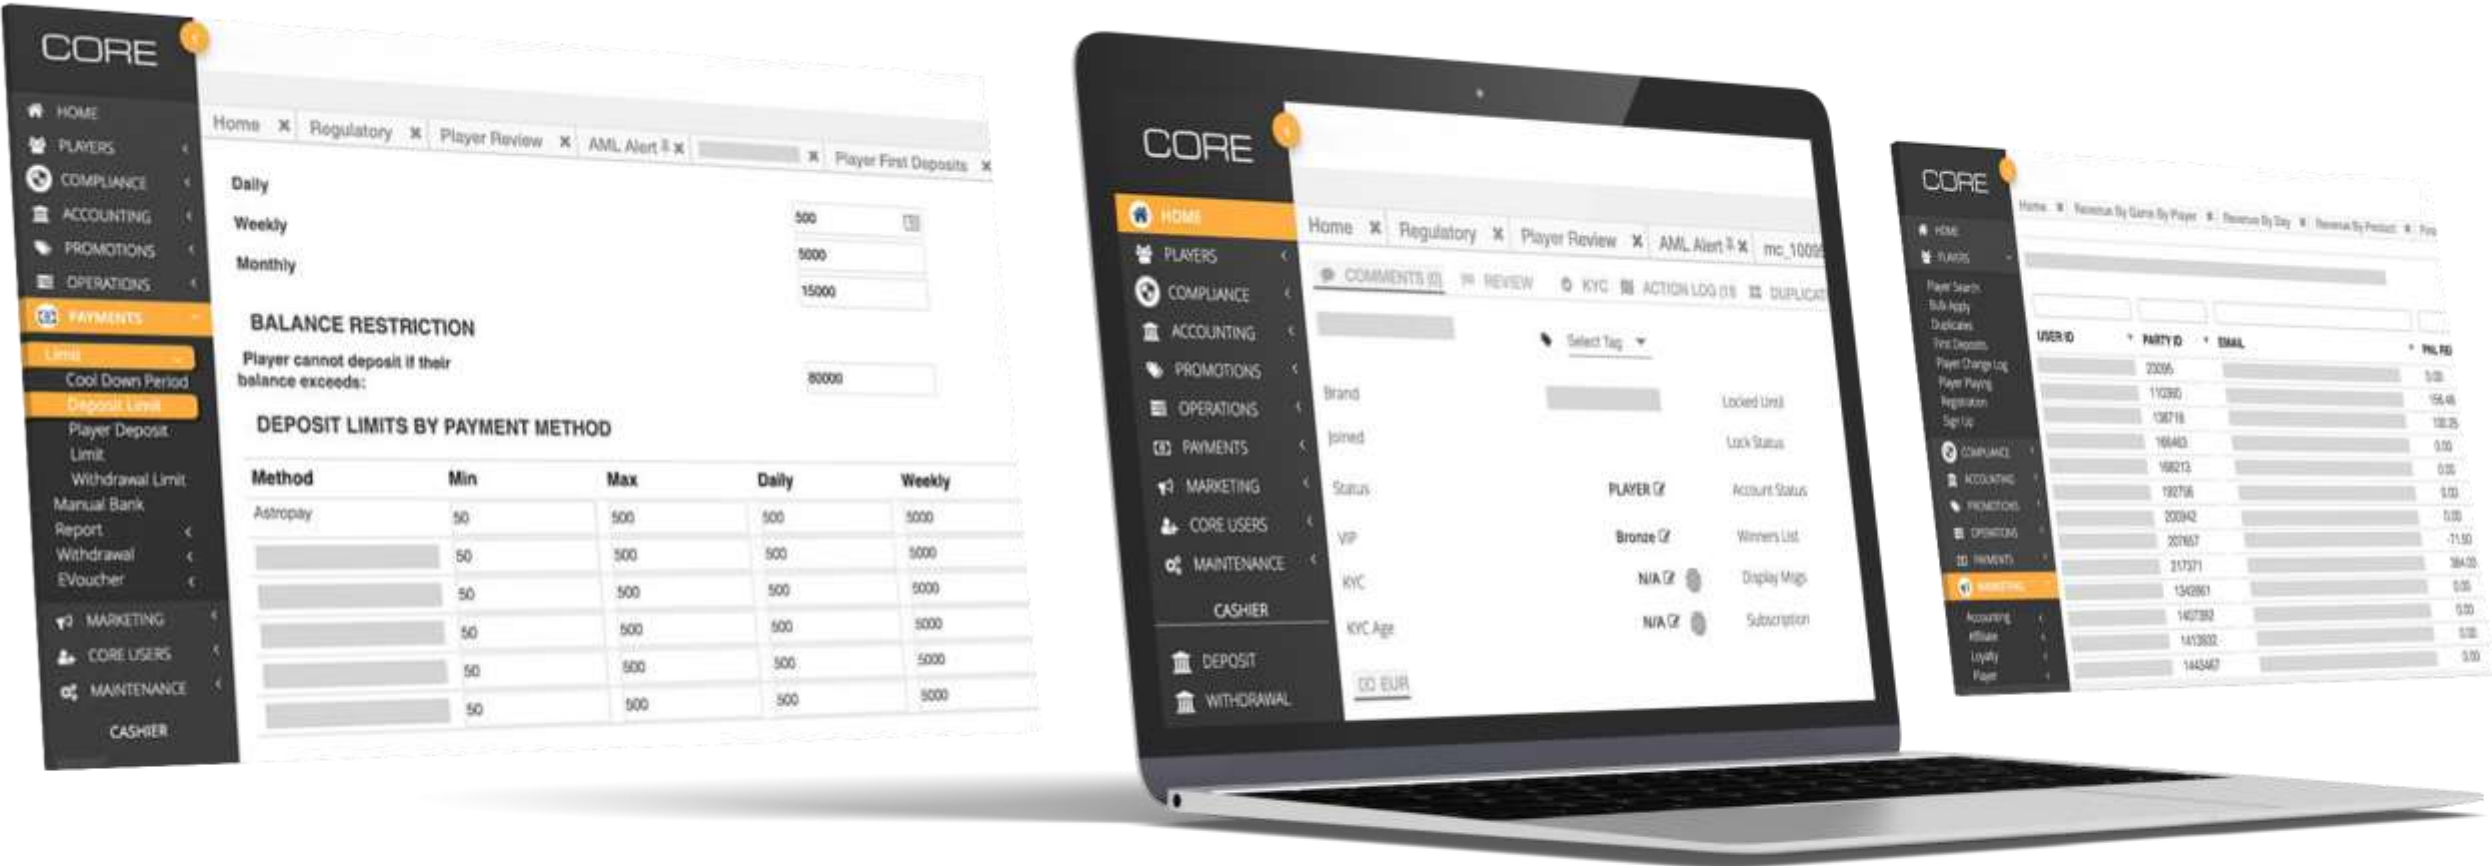

PWA APPLICATIONS

Smartphone users are a large and ever-growing audience. At the same time, application stores have limitations. Using Gamingtec, our partner **can produce** (adapt by wrapping) **an application, deliver it to a client and update the applications** without publishing it in the AppStore and PlayMarket.

POWERFUL BACKOFFICE

Self-tuning of payment systems and transaction limits is always available to a partner through the backoffice. This allows the partner **to deal with fraud, follow the regulator's limits and set up their own limits.**

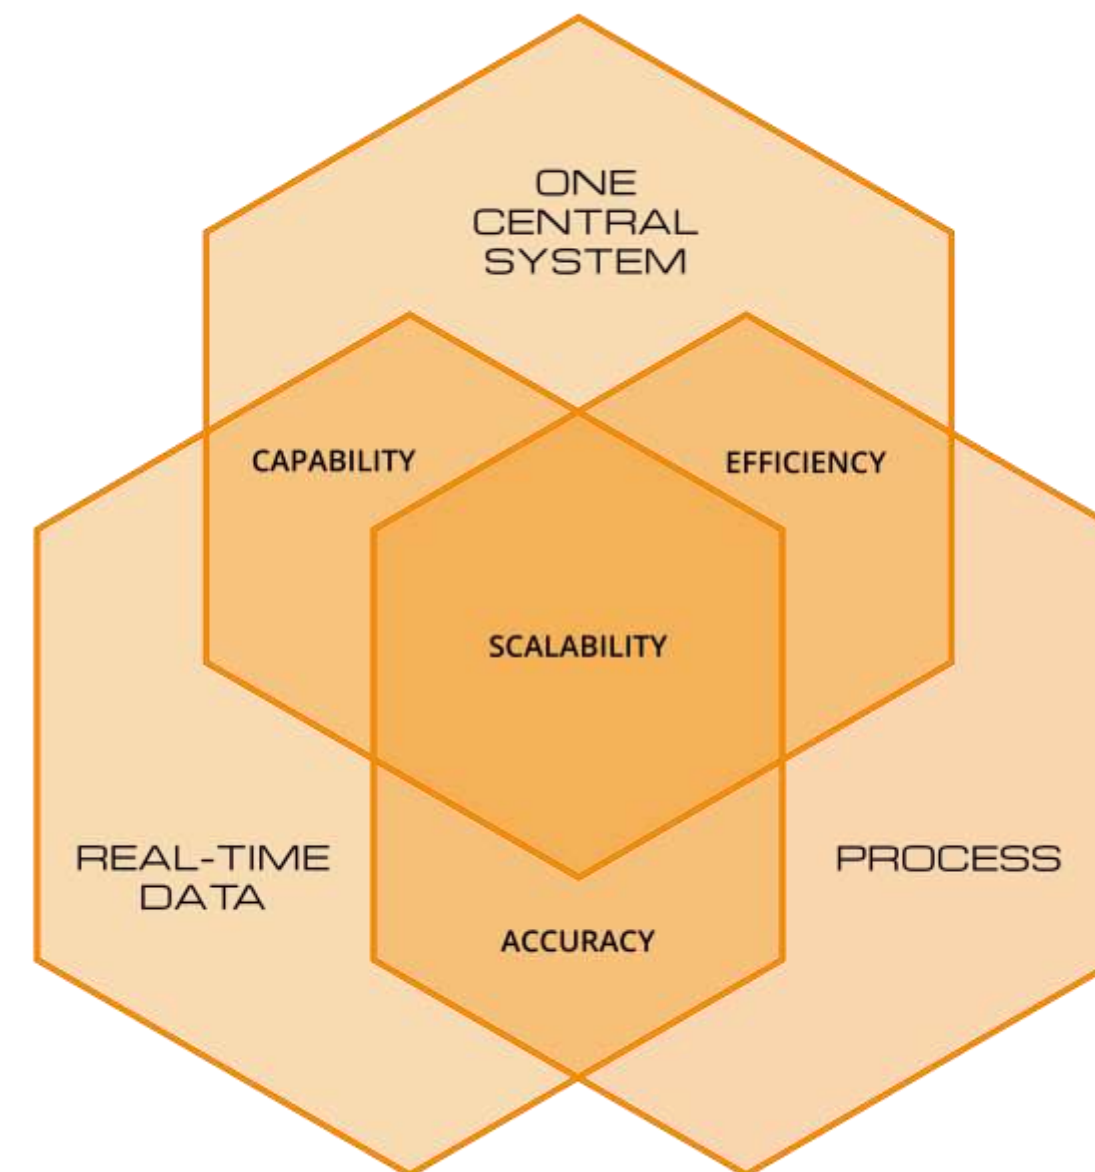

RESPONSIVE DESIGN

Our websites have an adaptive design for both **mobile and desktop** versions.

ADVANCED CRM SOFTWARE

- Multi-channel and automation capabilities beyond any other engagement platform.
- Accuracy with real-time data can reduce your bonus cost by 5-10%.
- Increasing productivity of operational teams by 60%. Scale fast and
- without fear of regulatory penalties. Banish tech backlog, outsource
- new service integrations.

Why choose Gamingtec?

The primary objective of Gamingtec is **to offer cost-effective and high-quality turnkey solutions by combining the management team expertise with robust platform and high-quality products**

- **We offer more than software**

Our platform is modular and each product is managed by a dedicated team of experts in their respective area – CORE, Sportsbook, Casino, Payments and Affiliate Platform. We can offer a complete iGaming experience where the partner can choose our full bespoke front-end or build their own, can decide between industry leading sportsbook iframes or a fully customized GT frame on the API of choice, and choose between having own 3rd party agreements versus GT deals. Flexibility and customization are what defines us.

Why choose Gamingtec?

- Aggregation and gamification

All platform modules outside CORE are based on content aggregation from the most popular providers in the industry. The variety in sportsbook offering, casino games or payment methods is only matched by our means to enhance the content value.

- We have partners, not clients

The principle of revenue sharing sets the base for every partnership we go into. Sharing benefits means sharing risks hence a common goal to keep a top quality standard in our products and services we deliver to our partners in all aspects of the business.
