PWA applications

Smartphone users represent a vast and continually expanding audience. However, application stores come with certain limitations. With Gamingtec, our partners can create or adapt applications, deliver them to clients, and perform updates without the need for public listings on the App Store and Play Market.

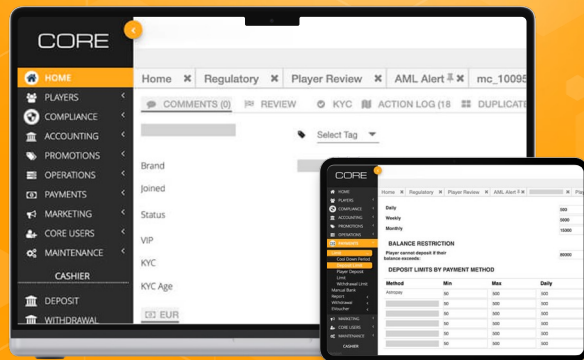

There is no need for your players to download native apps for all the different OS's — they can simply download directly from your site.

Powerful backoffice

Our back office provides partners with the flexibility to self-tune payment systems and transaction limits. This enables partners to effectively address fraud, adhere to regulatory limits, and customise the limits.

Responsive design

Our websites feature responsive designs that seamlessly adapt to both mobile and desktop platforms.

Advanced CRM software

Multi-channel and automation capabilities beyond any other engagement platform.

Accuracy with real-time data can reduce your bonus cost by 5-10%.

Increasing productivity of operational teams by 60%.

Scale fast and without fear of regulatory penalties.

Banish tech backlog, outsource new service integrations.
