Introduction

Gateway to the best games
providers in the industry

Our GT Casino is fully equipped to facilitate the launch of your online casino. It offers the latest games, advanced bonus engines, and tournaments, all complemented by our robust features designed to captivate and delight your new customers.

Features

1

A Comprehensive game selection

New games are instantly accessible to our partners. Partners can easily modify game banners, game announcements, game order, and the priority of display for end-users. They also have the flexibility to disable any games at their discretion.

2

Advanced bonus engine

Gamingtec support team either adjusts the bonus system for a partner or can teach the partner how to do it by themselves. Free bet, free spin — bets without money to attract new players.

3

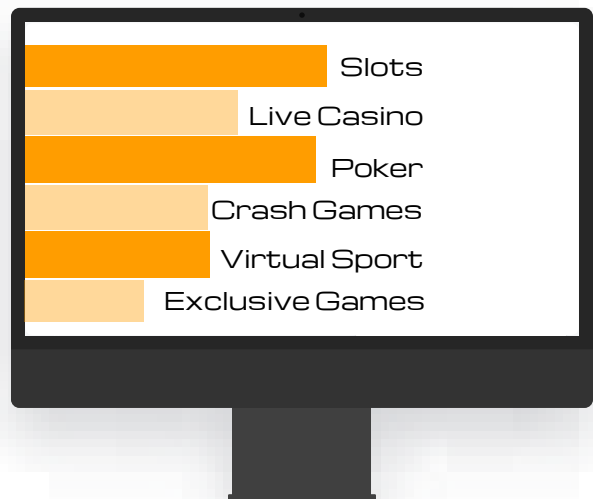

Tournaments

Tempt your players to play more and hold tournaments on their own tailored strategy. Tournaments can be fun and rewarding! And they don't necessarily reward those who spend the most.
